

Fawcett Times

PUBLISHED IN ENGLAND AUTUMN 2019
WWW.CAPTAINFAWCETT.COM

ISSUE NO.1 Distributed around the globe to Gentlemen's Outfitters, Barbershops, High Class Stores, Hatters, Tattooists & Apothecaries to the Nobility etc

*All hail the
hirsute*

On the following pages feast your eyes upon a selection of favourites from CAPTAIN FAWCETT'S *Emporium*, home to a simply delectable range of *first class* Gentleman's grooming requisites and a treasure trove of items for your delight.

CAPTAIN FAWCETT'S *Triumphant Signature Series* collaboration with actor, comedian and all round good egg *Rufus Hound* now includes a rather splendid *Eau De Parfum* to complement the ever popular *Triumphant Moustache Wax*. A delightful fragrance somewhat reminiscent of the balmy days of Spring; olfactory rural stimuli reaped whilst riding his beloved motorcycle thru England's green and pleasant countryside.

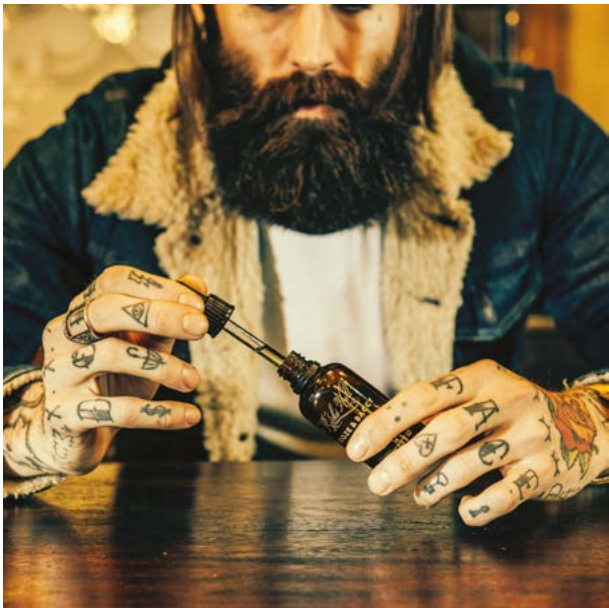

A heady perfume boasting top notes of *Bergamot, Lime and Ylang*, mid notes of *Blackcurrant, Clove and Galbanum* supported by the earthier base notes of *Sandalwood, Ambergris and Musk*. In truth this is simply delightful alchemic concoction and as such I would wager this to be one of Fawcett's finest... *Huzzah!*

CAPTAIN FAWCETT
PROUDLY SUPPORTS
BEARD SEASON.

Captain Fawcett collaborated with fellow adventurer Jimmy Niggles Esq. the founding ambassador of Beard Season & cultivator of the world's first Million Dollar Beard.

This unique combination of life enriching oils will make your beard feel like a million dollars. Crafted with fresh oceanic scents & earthy resinous notes & topped with an enchanting floral citrus, the only addition we thought appropriate was the ultimate luxuriant – flakes of 23 carat gold.

Handmade in small batches by the Captain's master blender, supplied in a glass bottle with rubber topped glass pipette for accurate dispensing.

Supporting Beard Season

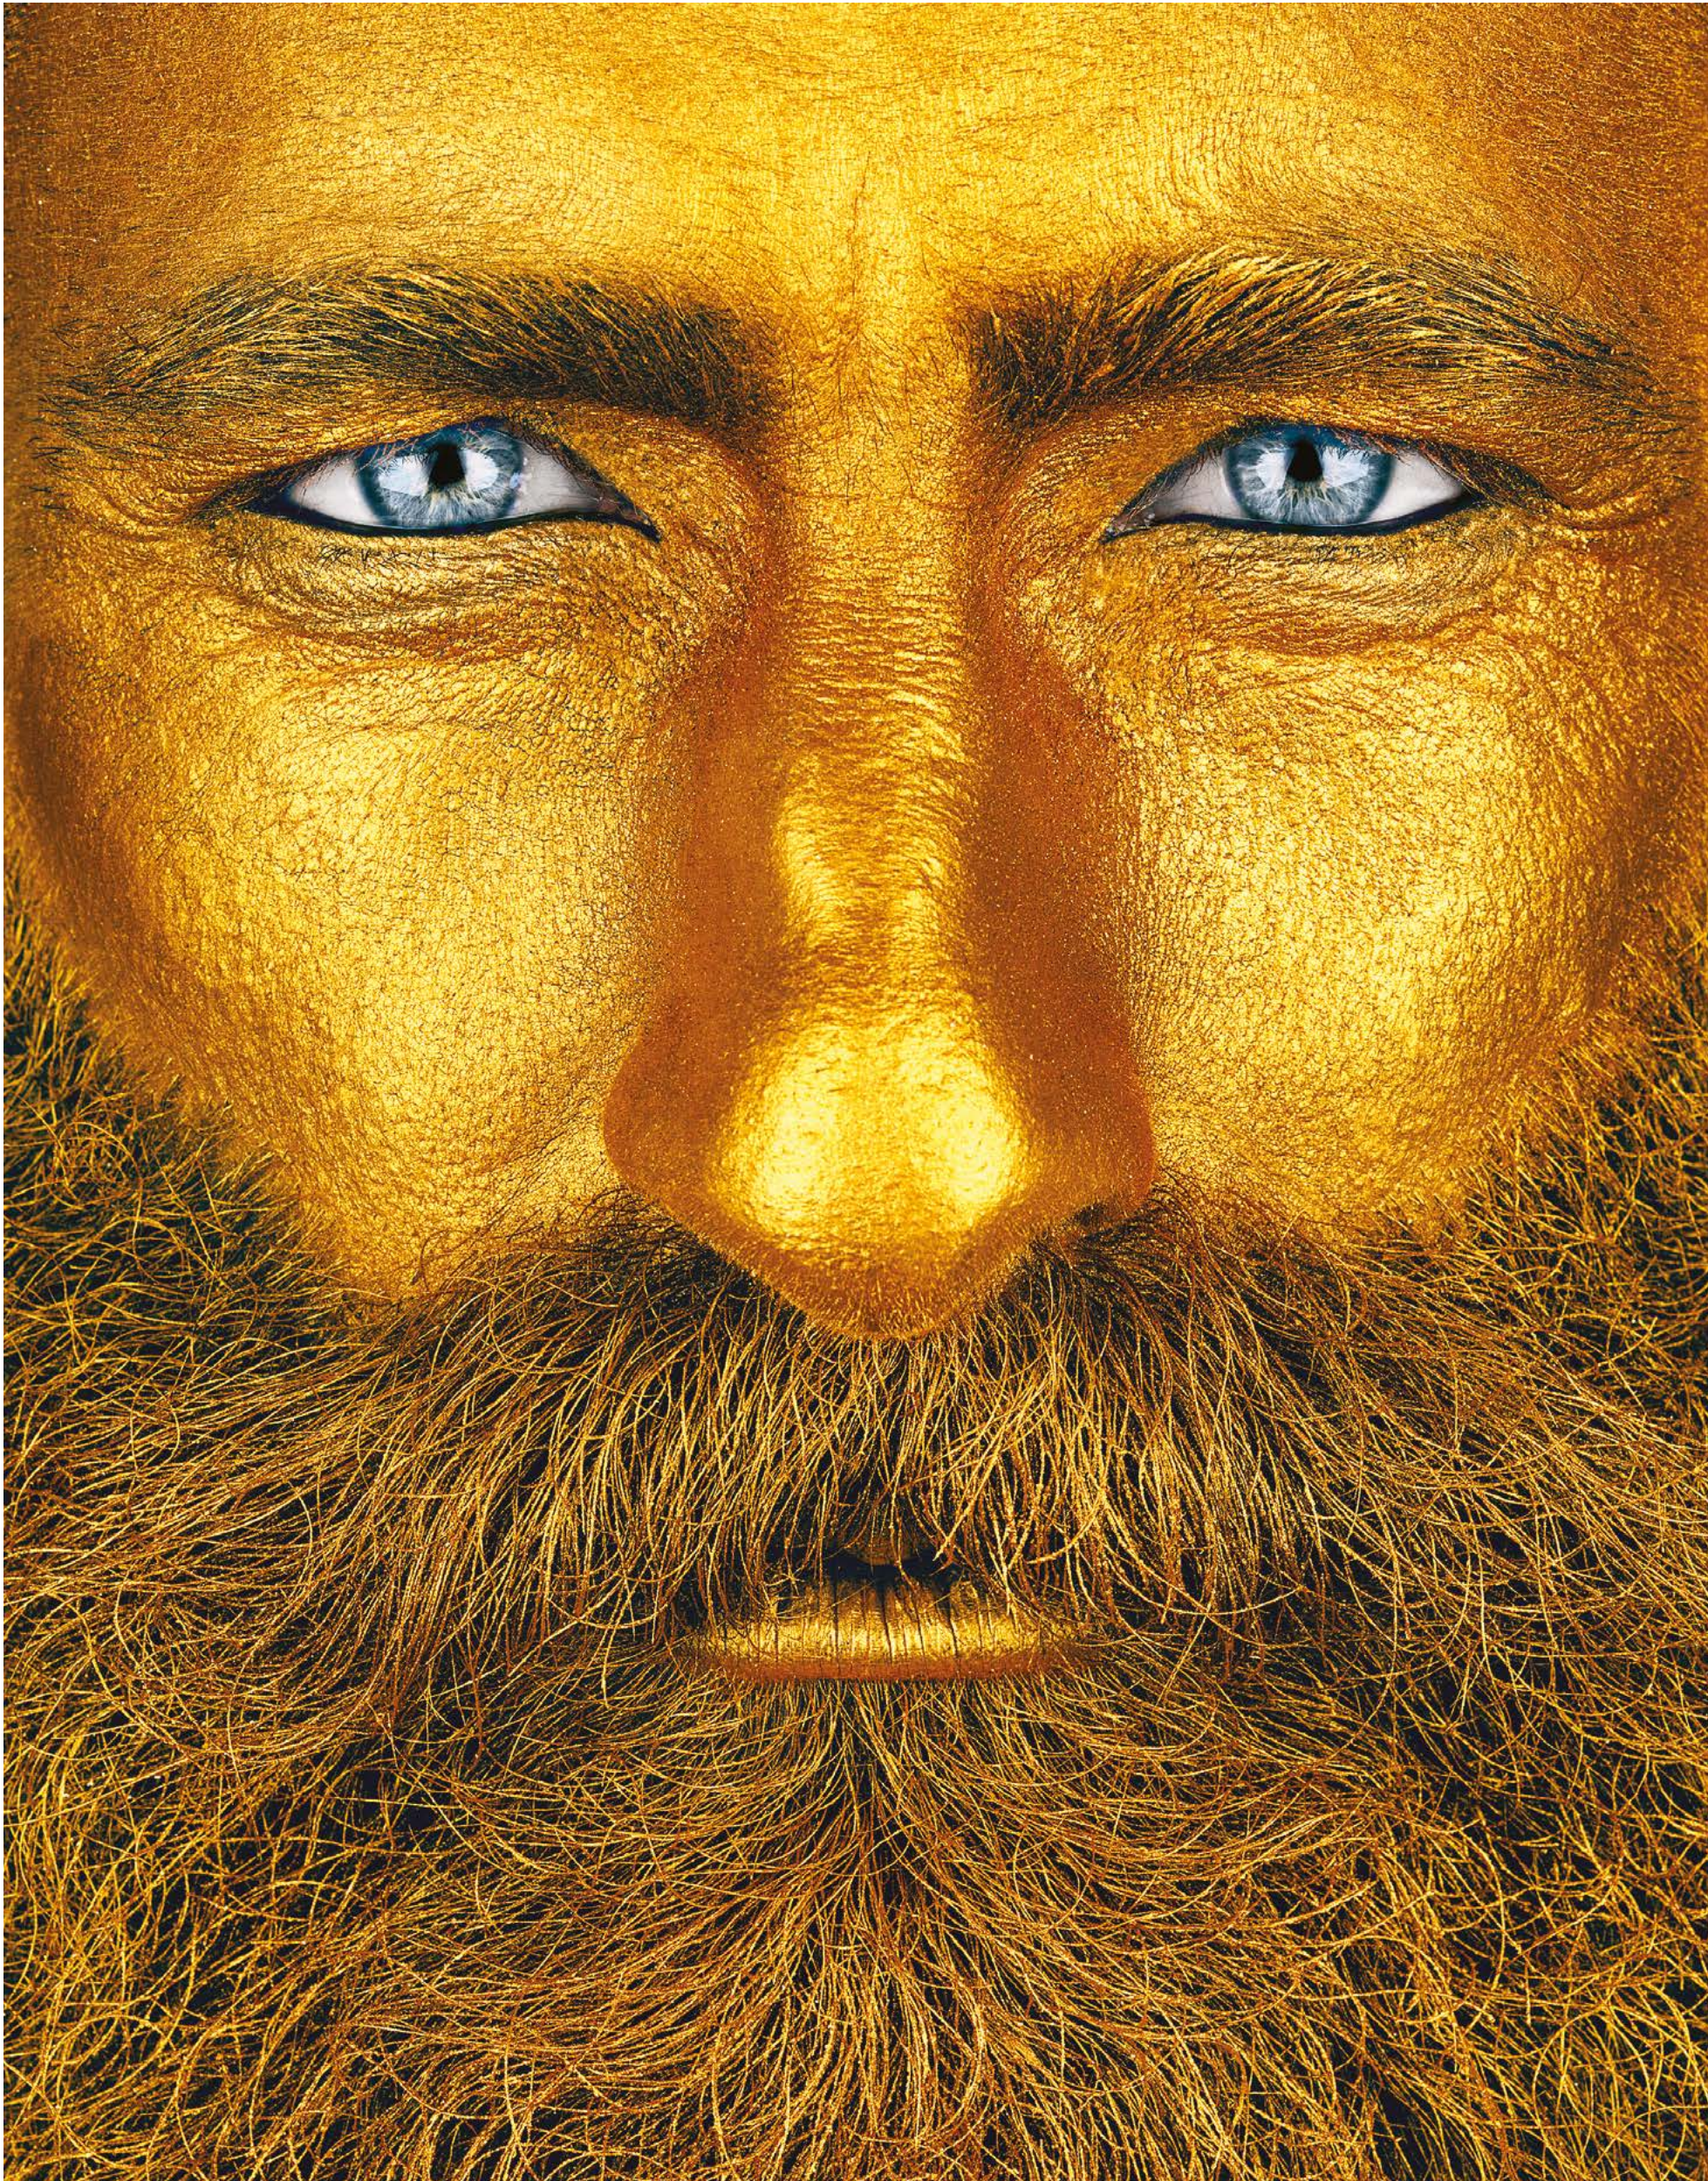

Beard Season is a global movement turning beards into life saving conversation starters, challenging you, your friends & family to have a skin check for melanoma – one of the world's deadliest cancers.

Proceeds from every bottle of Million Dollar Beard Oil will be used with responsible efficiency to spread awareness & action in the fight against melanoma.

BARBERSRIDE

On 11th August Captain Fawcett sallied forth to ride the length and breadth of England, helping to raise over £15,000 by taking part in an epic five-day motorcycle journey for a most marvellous British children's charity.

A fine fellowship of mad-cap adventurers, united by their passion for bikes and barbering, set off on a mission to support *Make-A-Wish* which turns the dreams of seriously ill children into extraordinary real-life magic. Completing a hat trick, the 3rd BarbersRide was an absolute triumph, with funds racing past the target of £15,000. Huzzah!

The Captain's very own Right-Hand Man, Richie Finney, is one of the founding members and Captain Fawcett is a key sponsor of BarbersRide which has become an annual road trip adventure bringing together industry leaders, barbers and bikers on a journey of camaraderie and merry mayhem. By day taking to the highway in all manner of wild and wonderful British weather, each evening features an intimate seminar hosted by some of the most prestigious names in the barbering world, followed by legendary after parties with live music, auctions of superb music and sporting memorabilia and food and drinks to revive the saddle-sore.

KING'S LYNN CAPTAIN FAWCETT'S MARVELLOUS BARBERSHOP MUSEUM A PERSONAL HOMAGE TO TONSORIAL ART ENGLAND

WHILST ADVENTURING across faraway lands, *Captain Fawcett* has maintained his well waxed whiskers with visits to barber shops around the globe. For in truth if one is a curious fellow, there is no surer place to unearth hidden histories than the local shave parlour.

Intriguing tonsorial tales fired the passion of this keen amateur collector and thus the Captain began in earnest to amass a trunk full of barbering ephemera. Indeed he soon had enough trinkets, trophies, oddities & specimens to fill a veritable treasure trove, a prized collection worthy of its own Museum. Such artefacts must be displayed and available for all to see, so, ably assisted by his *Right-Hand Man*, Fawcett curated a most '*Marvellous Barbershop Museum*' within his own '*Gentleman's Grooming Emporium*,' a personal homage to the tonsorial art.

The collection features items that will be a delight to all with an interest in hairdressing, social history & antique objects with a story to tell...

PHOTOGRAPHIC SHOOTS

With a background in the British film industry, Richie Finney, the *Captain's Right-Hand Man*, has curated the Museum with the eye of a set designer, creating period tableaux which might well serve as a unique photographic & film location.

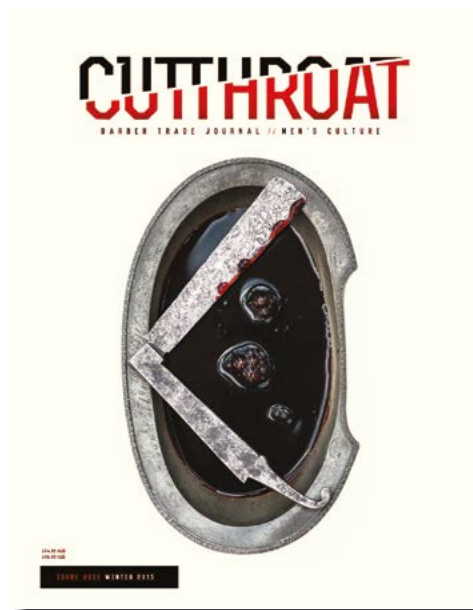

EMPORIUM

Visitors to the *Marvellous Barbershop Museum*, located on the mezzanine of *Captain Fawcett's Emporium*, will also be able to sample and purchase from the full range of *Captain Fawcett's Simply First Class Gentleman's Grooming Requisites*.

PLEASE NOTE

We would recommend calling in advance of your visit.

Priceless 370 year old razor featured on the cover of Australia's CutThroat Magazine
Photograph: www.iaincrockett.com

A prized item in the Captain's Museum is this extremely rare *British Antique Razor* dating from 1650 and still sharp! The exquisite blade is decorated with 'cutler's poetry' exhorting its owner not to pursue violent ends. Found behind a drawer in a cupboard along with other keepsakes, it is certain this razor was hidden centuries ago. We can only imagine what stories lie behind its concealment...
